

SQL'de Database Oluşturulma Tarihi ve Geçen Gün Sayısının Bulunması

SQL'de bir database create edildiğinde veya restore edildiğinde oluşturulma tarihi ve Database'nin oluşturulduktan sonra geçen gün bilgisi aşağıdaki sorgu ile görüntülenebilir.

```
SELECT name,create_date DatabaseOlusturmaTarihi, GETDATE() GuncelTarih, DATEDIFF(day,create_date,GETDATE()) AS "Database Oluşturulduktan Sonra Geçen Gün Sayısı" FROM sys.databases where database_id >4  
  
ORDER BY [Database Oluşturulduktan Sonra Geçen Gün Sayısı] DESC
```

The screenshot shows a SQL query in the 'Query Editor' window and its results in the 'Results' window. The query is designed to list all databases except 'master', 'model', 'tempdb', and 'msdb' (database_id > 4), showing their creation date, the current date, and the number of days that have passed since they were created. The results are ordered by the number of days in descending order.

	name	DatabaseOlusturmaTarihi	GuncelTarih	Database Oluşturulduktan Sonra Geçen Gün Sayısı
